

98.5CM

The image shows a technical line drawing of a hanging lamp. At the top is a small, shallow, bowl-shaped fixture with vertical lines on its interior. This is connected to a chain of five oval links. Below the chain is a circular ring that connects to the top of a larger, multi-tiered lamp body. The lamp body has a domed top, a wide middle section, and a narrower bottom section with a pointed finial. Three vertical dimension lines are present: one on the left for the total height (98.5CM), one on the right for the height of the chain and ring (52CM), and one at the bottom for the width of the lamp body (23.5CM).
